

50ml & 600ml TubeSpin

- For High Throughput Screening of Process Parameters & Production Cell Lines
- Rapid Sampling
- Fits Standard 50 or 600ml Centrifuge Apparatus
- Ideal for Suspension!
- Improves Growth in a Smaller Geometry

Key Points

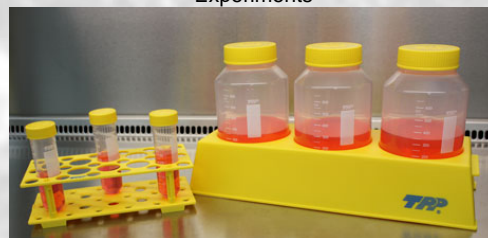

Small Scale Bio-Reacting

Control Gas Exchange & Evaporation

Excellent for Parallel Tests & Optimization Experiments

Ideal for Suspension Cells

No Formation of Foam at Any Speed

0.22um Filtered Cap

Product #	Volume	Version	Dimensions	Pieces / Pack	Pieces / Case	Your Price
TP87050	50 ml	Filter	Ø 30 x 115 mm	20	180	\$ 212.00
TP87600	600 ml	Filter	Ø 98 x 181 mm	1	26	\$ 428.00
