The Stabilizer™

Universal Container Rack

The Infinity Rocker Stack-3 with two Stabilizer™ container racks

TPP® 600ml TubeSpin Bioreactors are ideal for the culture of aerobic or anaerobic bacteria, yeast and suspension cells. Next Advance, manufacturer of high performing, budget-friendly laboratory products, has designed the Stabilizer™ to enhance your use of this product.

- ▶ Securely Holds up to 4 bioreactors, bottles, or flasks - perfect for odd shaped or conical-bottomed containers.
- ▶ Fits stably onto the platform of several Next Advance Infinity Rocker models, the rugged family of laboratory rockers with a 4 year warranty.
- ▶ Gently mix cultures on an infinity rocker inside of an incubator for optimal growth conditions.
- ▶ Use with the Infinity Rocker Stack-3 for triple capacity.
